Who We Think We Are

Teaching

A class that has already experienced or used Linux or UNIX in the real world.

We're assuming an intermediate level of knowledge.

Are we right?

Some Philosophy

- Debian's conservative model
 - *Very* different from Fedora Core
- Releases and Repositories
- Ubuntu's benefactor: Mark Shuttleworth
- Desktop vs. Server vs. LTS versions
- The connection with Debian
- Restricted software and Ubuntu

 - meta-packages
 - repositories

What's Different cont.

- Startup scripts

- Controlling services
 - update-rc.d
 - sysvconfig
 - rcconf
 - rc-config

What's Different cont.

There's more...
